+1(415)425-7163 lion@lotek.org <http://www.lion-gv.com> 1591 Jackson St. #5, San Francisco, CA 94109

Summary:

Over ten years of creative industry experience, including seven years in the video game industry as a designer, producer, marketer, and business developer.

Specializing in the development of new IP, scenario planning, pitch development, creative direction, document writing and layout, problem solving, and the design and implementation of core mechanics, control schemes, usability, combat, and AI.

Work Experience:

Studio Interrupt: San Francisco, CA; April 2008 – February 2009, October 2010 - Present **Director**

- Currently producing three multi-platform projects with a focus on iPad as the lead SKU
- Game design and UX: Q8ISMobile, Mighty Play, Mastiff, Sirlin Games, Disco Pixel
- Business development: Sirlin Games, YetiZen
- Unity training: Flying Wisdom Studios, BAVC
- Consultation by proxy: Mattel, Kongregate, Mega Brands
- Shipped: Yomi (Card) — The Dice Tower's 2010 Game of the Year!
- Additional Contributions: Kongai (Web), Xtractaurs (Web), Neo Shifters (Web)

Unity Technologies: San Francisco, CA; July 2009 – October 2010 **Marketing Communications Manager**

- Responsible for Unity's break out presence at GDC 2010 including event budget, booth direction, conference/union logistics, personnel logistics, inter-company demo trades, and content
- General MarCom: Represented Unity at industry events, evaluated event sponsorship and exhibition opportunities, product demonstrations, collateral and advertisement creation (including copywriting, graphic design, layout, and video production), copywriting and copyediting for press releases, newsletters, blogs and articles, and point person for marketing inquiries
- Products Launched: Unity iPhone 1.5, Unity 2.6, Unity iPhone 1.5.1, Unity 2.6.1, Unity Asset Server 2.0, Unity iPhone 1.6, Unity iPhone 1.7, and Unity 3.0
- Spearheaded Unity's first Japan strategy and official excursion into the Japanese market; issuing Japanese press releases, creating online and print marketing collateral, and leveraging contacts to secure and promote a packed week of meetings and standing room only presentations including the Tokyo Ginza Apple Store, a booth and session at CEDEC, and business meetings with 24 Japanese game companies
- Succeeded in promoting Unity out of relative obscurity and into an industry staple; registered users went from 10,000 to 250,000 during my time with the company

Sirlin Games: Emeryville, CA; March 2005 – August 2010 **Co-Creator: Yomi**

- Significant contributions to graphic design, usability design, and mechanics design
- Created the card data flow and formatting pipeline, automating Indesign with XML and Javascript
- General production and business development: processed art assets, sourced printers, printed beta decks, and set up meetings with potential publishers and licensors

Core Talent Games: San Francisco, CA; September 2008 – December 2009 **Co-Founder, Chief Creative Officer**

- Co-conceived the venture; laying strategic ground work and conducting competitive analysis during the planning phase prior to incorporation (April-September, 2008)
- Reviewed design submissions, scouted design talent, helped shape CTGs evolving strategy, and engaged in general business development

SEGA Studios: San Francisco, CA; March 2009 – July 2009 **Senior Game Designer**

- Enemy systems designer for Iron Man 2 (PS3, 360) – Defined the enemy archetypes and sub types and implemented weapon and AI behaviors from early production until systems complete

Stormfront Studios: San Rafael, CA; February 2007 – March 2008
Lead Combat Designer

- Shipped: The Spiderwick Chronicles (PS2, 360, Wii, PC) – responsible for the design and implementation of all character control, combat, and ai. Additional contributions to core mechanics, quests, and scene flow
- Involved in preproduction design for three unannounced games (1*360/PS3, 1*Live Arcade/PSN, 1*Wii)

Backbone Entertainment: Emeryville, CA; August 2005 – February 2007
Game Designer, Associate Producer

- Shipped: Capcom Classics Collection (PS2, XBOX), Capcom Classics Collection Remixed (PSP), Capcom Classics Collection Vol. 2 (PS2, XBOX), Sega Genesis Collection (PS2, PSP)
- Additional Contributions: Super Puzzle Fighter II Turbo HD Remix (PSN, XBLA), Super Street Fighter II Turbo HD Remix (PSN, XBLA), SEGA Vintage Collection (XBLA), Commando 3: Wolves of the Battlefield (PSN, XBLA), 1942: Joint Strike (PSN, XBLA)
- Involved in all aspects of pitch development and preproduction including art direction, document creation, gameplay design, and scenario planning for ten games (2*PS3/Xbox 360, 2*PSP, 5*Live Arcade/PSN, 1*DS)

Shaba Games: San Francisco, CA; May 2005 – August 2005
Game Analyst (Contract)

- Shipped: Shrek SuperSlam (PS2, XBOX, Gamecube) – analyzed and wrote reports concerning the design and balance of the game's characters, weapons, core mechanics, and levels; created a bonus stage for the game's Challenge Mode

“Breakerz” MFA Project: San Francisco, CA; July 2004 – December 2004
Game Director

- Conceptualized the game, wrote the game design document, and set a consistent and appealing aesthetic style
- Executed the entire production pipeline including character designs, environment design, modeling, texturing, character setup, animation, scene integration, interface design, sound design, and compositing

Studio Interrupt (v1): Columbus, OH; Colombo, Sri Lanka; August 2001 – August 2003
Freelance Producer, Film Maker, and Designer

- Shot, directed, and edited award winning documentaries and experimental films
- Shot video and produced DVDs for clients including Opera Columbus, JICA, and Master Mollica

Mythryn: Evanston, IL; March 2000 – July 2001
Interactive Media Designer

- Developed extensive HTML and Flash based websites and CD-ROMs
- Created 2D and 3D graphic design and animations
- Integrated design, animation, and scripting elements into interactive projects for web and CD-ROM delivery
